Beautiful Winter Styles—Black and White
In Combination.

Special correspondence of The Florida Star.

New York, Dec. 4.—We all know by this time that it is at the horse show that all our fashions are decided upon, and out of all the things offered for sale at the big and little stores only comparatively few are chosen as the proper style for winter. And the authorities have decided that black and white in combination are to be the best and most desirable of all. There is already quite a marked movement in garments of such an arrangement of black and white as seems most suitable for the special kind of material or the special garment. One of the chief leaders of what is best and most tasteful in women's attire is Mrs. Suffern-Taller, and she wore a dress made of white taffeta and black lace. The gown itself was of the crisp silk, and the black lace was set on in separate patterns and followed out a design. Around the bottom of this dress there were no less than six small ruffles of white chiffon, and this was applied with separate pieces of the black lace. The corsage was like a blouse, with a cross between a bolero and a jacket quite indescribable. With this she wore a large black felt hat with two fine ostrich plumes, and these were laid out flat by the force of a strong silver buckle of phenomenal proportions.

Mrs. Hermann Oelrichs wore a gown of black striped brussels net over glistening white taffeta, and along every stripe there was a row of steel and jet spangles. The effect was extremely fine. Another lady wore a dress of white china crape, and this was almost covered with steel and black guipure lace. The rich lace was outlined everywhere with the steel, and the waist was a combination of the same things. Mrs. William A. Duer wore a dress which was one mass of black and silver spangles. All this and more was seen in black and white, and this has set the seal upon the tentative offers of black and white combinations offered quite a little time ago; but, as I said, no one apparently dared to take the style seriously until after the great function should have set the seal of fashion upon it. In London there are

trimmed in any way. They are called mold and peat, and they can be found in the rough, woolly textures and make stylish gowns. Dove is another new color, and there are several novelties in brocades of poplin, where there is a light color and a ground of black. These are not expected to be very durable, but they are pretty and showy while they last.

Many entirely new designs in camel's hair suitings in colors and black are seen, some of them being figured, and some of them are plaided, the plaid being formed only by the rough surface of the long hairs. In black this is undeniably rich and durable and not costly. These goods require but little trimming.

is usually indigestion, which means no appetite, sleeplessness, irritability, weariness of body and brain. Dr. Loyal Ford's Dyspepsia Cure is a new and perfect cure. It aids digestion, tones and regulates the stomach. Wilson & Son.

The Union Traction company, of Philadelphia, promises to run open cars, one in five, all winter long, with no restrictions as to smoking. In the summer smoking is only permitted on the last three seats of open cars.

Many persons have had the experience of Mr. Peter Sherman, of North Stratford, N. H., who says: "For years I suffered torture from chronic indigestion, but Kodol Dyspepsia Cure made a well man of me." It digests what you eat and is a certain cure for dyspepsia and every form of stomach trouble. It gives relief at once, even in the worst cases, and cannot help but do you good. Wilson & Son.

The Republican party is so anxious for the reorganization of its rival that it should appoint a committee of stalwarts to attend to it.

GRAY CHINA CRAPE GOWN WITH SILVER STITCHING.

the races where his "fyal 'ghness" goes, and it is there that the most of the fashions are set in that country, and in Paris it is at the Vernissage and also at the races of the Grand Prix, each in its season, that the fashions are set, but we wait for the horse show, and now the agony is over and we know that all kinds of arrangements of white and black in millinery and in garments from wraps to tea gowns are the style.

Aside from the combination of black and white I notice much delicate gray, particularly in crepe de chine and in the soft wools and crepons. In the matter of hats and toques and capotes there is much turquoise used as trimming. Panne, velvet and tulle are all seen and seen often, for turquoise is a color very effective, especially for evening wear. There was much crepe de chine worn, and this was always in very delicate shades, but not pastel. I have seen no pastels this season, but there are mastic, mauve, white, steel gray, old rose and some few shades of pale tan. There were two or three gowns of cloth in the new shades called mousse de champagne and champagne without the froth.

Among the new colors adopted by common consent by the ladies at the show I noticed swallow blue, which has something of the dark gloss seen upon the wings of those birds. Prunella cloth and some of the silks and some of the poplins are produced in this color and with good effect. Two shades of light brown are exceptionally pretty, and as they are almost neutral they can be worn with anything and can be
